# OUR MISSION

We support and empower all people living with or affected by HIV, reduce stigma, and provide compassionate healthcare to the LGBTQ+ community & beyond.

*Founded in 1985 as a grassroots response to the AIDS crisis, Cascade AIDS Project (CAP) is now the oldest and largest HIV-services and LGBTQ+ healthcare provider in Oregon and Southwest Washington.*

# DEAR FRIENDS,

*The outbreak of an unknown virus evoked memories, firsthand and inherited, of the HIV epidemic's fearful early days.*

When we at CAP selected “Reflections” as our annual theme for 2020, we could not have anticipated the many meanings that the theme would take on over the course of this momentous year. We thought we were commemorating our 35th anniversary by setting our intention to reflect on our history and our purpose. We thought we would spend 2020 looking backward and inward. I thought mirrors would look fabulous on my CAP Art Auction ensemble.

Then came the COVID-19 pandemic. And the racial-justice uprising. (And the wildfires, and the presidential election, and on and on.) Our plans for a year of remembrance and rumination were shattered. And yet, ultimately, 2020 was a year of “Reflections” for CAP anyway.

The outbreak of an unknown virus evoked memories, firsthand and inherited, of the HIV epidemic's fearful early days, while the mutual-aid networks that sprung up in response to the novel coronavirus echoed the

support systems that people affected by HIV created in the early 1980s—one of which would become Cascade AIDS Project. I have never been prouder of our agency than when, after we were required to close our offices in mid-March, our staff pivoted to remote service and did everything they could to make sure no one we serve was left without support, from getting cell phones into the hands of hard-to-reach clients to delivering food boxes every week to those experiencing food insecurity.

In May, the murder of George Floyd by Minneapolis police officers, and the massive protests it incited, pushed CAP to look harder at our organization, its past, and the ways in which we have not shown up—and are still not showing up—for Black lives. In a year when the urgent needs of our clients, our families, and our selves competed for our attention, racial justice remained firmly a priority at CAP: Our staff spontaneously formed a diversity, equity, and inclusion (DEI) discussion group. Our management team embarked on a six-month series of DEI capacity-building trainings. We created an

executive-level Equity & Inclusion Advocate position to lead our equity work. That work will continue beyond 2020, I promise you; racism is a virus with no vaccine.

Next year marks another anniversary: 40 years since the first case of HIV was diagnosed in Oregon. Nothing is worth the thousands of lives we've lost over the past four decades—but something was gained. In the concept of contact-tracing and the wisdom of infectious-disease experts such as Dr. Anthony Fauci, one can see reflections of the HIV epidemic—a little light shed on the fight against this new virus by hard-earned knowledge from the fight against another.

I look forward to the day when both COVID-19 and HIV are pandemics of the past. Until then, CAP will be here.

Sincerely,

**Tyler TerMeer, PhD**  
Chief Executive Officer
